Note: Monmouth Stake and The Dalles Stake are not listed. They can't currently reach the Repeater.

**The Net starts at 9pm on the CARS 146.700 MHz Repeater,**  
**with PL Tone of 100.0 Hz, and Negative Offset.**

**Net Control Operators should email the following to me by**

**Noon the next day---**

**1. Each Check-in's First Name, Call Sign & Stake/District**

**2. Any Bulletins**

Please be sure that your Stake provides a Net Control Operator for your assigned dates. I recommend that the Stake ECS be the Net Control Operator; but you can assign it out as you see fit. Be prepared each week to step in and start the Net if a Stake fails to do so by 9:02pm. We will try to keep an up to date copy of the Preamble on the CARS website [ [www.carsradio.org](http://www.carsradio.org) ].

**If any questions please contact me at:**

Ken Tolliver, K7ICY

Multi-Stake ECS
